

Hello! My name is Anette Dundas!

I have been singing since I was an elementary school student. I use both belt, mix and head voice. I have a vocal range going from around D3-F6!

In my spare time I like to do relaxing activities like art (drawing and sculpting), playing PS4/computer games, watching Netflix and YouTube, go for walks or playing with my son (he is 4 months old at this time).

As for sport and activities, I like to run, do weight lifting and yoga! I also love scuba diving. I love water and I really want to learn to surf!

I love hair and makeup! I always change my hair style and colour and I love to try new different styles of makeup!

I am from Norway, so English is actually my second language (just like Japanese students!) although I did live in England for 11 years.

My favorite thing (aside from my son) is Final Fantasy XIV – Online! I have played this game since it was released in 2013!

I have a cat named Chestnut. She is very funny and acts more like a dog than a cat. She will play fetch and also comes when I call her name or whistle for her!

I love D&D. Tabletop RPGs are amazing!

I also love to cook! I have an intolerance to gluten (it is a protein found in wheat, barley and rye) so I have to get creative when making food.
